CRISTOFORI WJB-132ME

The King of Upright Piano

German
Imperial Scale

Award winning German Imperial Scale Design

Wondrous creation of both technology and tradition - Sand cast iron frame, precision manufacture process with CNC technology.

Made in collaboration with SAMICK – world's influential piano maker; assembled in Indonesia under the stringent supervision of Korean Engineers

Ebonite
Black Keys

Ebonite Black Keys

Made of 100% natural Ebony wood giving the pianist the most natural touch necessary for translating every key strike to the desired strength

German
Abel Hammers

Made in Germany Abel Hammers

World's finest virgin wool felt attached to the rigidity of hard rock maple, double felt from bass to treble to keep the hammers in shape and ensure it perfectly rebounds when hits the strings

Double
Soundboard
System

Double Soundboard System

The "Double Soundboard System" gives the characteristic warm and rich tone known as the "European sound"

German
Röslau Strings

Made in Germany Röslau Strings

The finest strings in the world for the best clarity of tone and tuning stability

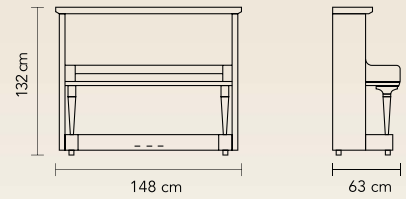

Your Choice of
Tone Colour

Tone Optimization & Precision of Mechanism

Each WJB piano is crafted to a high level of piano voicing demanded by the most discriminating ears of musicians. Precise and highly responsive touch regulated by CRISTOFORI technician
